

Catering Menu

We can quote on anything to suit your event and if we can't provide it we will outsource to other local suppliers. Below are some of the things we are well known for and a pricing guide. Each job is however quoted on its merits, and we can adjust inclusions to suit budgets. Minimum charge for any job is \$300 but this is waived if we are simply delivering food for you to serve and clean up. Food served by us is done so buffet style with all dietary requirements considered. Guests can then choose to suit their personal preferences. Price guides below includes delivery, set up of a buffet and full clean up after service. If food is just delivered you'd expect it to be about 10-15% less. If you would like table, or full cocktail service you'd add 10-15% more. Extra services that can be quoted include, crockery and glass hire, liquor licensing, tablecloths and room decoration.
